End of Assembly

Report

The following 19 member organisations with voting rights were present:

StichtingEHS NL, diagnose:funk DE, Bündnis Verantwortungsvoller Mobilfunk Deutschland e.V. DE, Gesund VerNetzt DE, BZND Zentrum für Neurodiversität e.V. DE, Coeurs d'EHS FR, Association Z'Ondes FR, Life Resonance CZ, Elöverkänsligas Riksförbund SE, Elektrosmog a zdravie SL, ADA ES, EHS-Foreningen DK, May Day DK, Amica ITA, Associazione Italiana Elettrosensibili-A.I.E. ITA, ES-UK, Fundacja Ruch Społeczny SPOIWO PL, AZB FR, PRIARTEM FR

The Chair, Rob van der Boom, opened the meeting, welcomed everybody and thanked them for their continued commitment despite the hardships some of them have to bear.

1) Election of moderator, voting committee, reporter

Charlotte Ryø was proposed by the board as the moderator and was elected. Pernille Schriver and Kamil Bartošák were proposed as voting committee and were elected. Elisabeth Madsen was proposed and elected as reporter.

Attendance and Representation Note:

The moderator confirmed that the invitation to the General Assembly was sent out in due time and that the meeting was held according to the stipulations of the Article of Association. The presence of a quorum (at least 10 pct.) was verified and confirmed.

It was noted and recorded that Petra Bertova (Slovakia) was absent but officially represented by Martin Krenicky for the duration of the meeting. Charlotte from May Day carried 1 extra vote from Amica and Elisabeth carried 1 extra vote from Bündnis Verantwortungsvoller Mobilfunk Deutschland e.V.

Approval of the Agenda: The agenda was presented to the General Assembly. The moderator suggested to move some items and the assembly agreed. A motion was made to amend the agenda under Item 12 to include the candidacy of Petra Bertova (Slovakia) for the position of deputy board member.

2) Presentation of the Annual Report

The moderator gave the word to Rob who presented some points from the [Management Report](#)

ESC employs a dual strategy of citizen awareness (bottom-up) and EU lobbying (top-down). ESC is pleased to tell that we added five new member organizations, expanding our footprint into Poland.

EU Advocacy: ESC hosted a "Children in the Digital Age" webinar, joined the HTA Network, and submitted 11 legislative contributions to the European Commission. Rob briefly talked about the work in some of the Working Groups:

- *Law & Politics* supported Priartem in challenging EU EMF risk assessments via the EU Ombudsman.
- *ICD-11* applied to the WHO for a diagnostic code for EMF-associated headaches.

- [The Petition to the Parliament](#) about the right to stay analogue was also mentioned.

Events: ESC supported national conferences in Belgium and the Netherlands.

3. Approval of the Performance of the Board of Management

The moderator thanked Rob for his presentation and asked the members for comments/questions. There was a question about working groups: the member was directed to see more about our working groups [on our website](#). There were no other questions.

The Performance of the board was then voted on and was unanimously supported.

4. Presentation of the annual accounts of the last fiscal year

The moderator noted that the former treasurer Guy Lerat had resigned in November for personal reasons. Corriëlle has generously and willingly stepped in to assist the board. She went through the 2025 Financials. Total revenue was €8,373 (mostly membership fees). Expenditures were tightly controlled at €4,613 against a €13,032 budget due to deferred projects and self-funded board travel, leaving total reserves at €18,603.

The Audit Committee issued a clean opinion. All financial details can be found [here](#).

5. Approval of the Annual Accounts

The moderator asked if there were any questions to the financial report. There were none. The Annual Accounts were approved by the members with 19 votes in favour, 0 against, 0 abstentions.

6. Proposal on future projects by the Board, in relation to the ESC Strategy and by members.

Rob presented upcoming project proposals aligned with [the ESC Strategy](#).

- New UN project Human rights for the elderly
- Technical solutions – measuring EMFs
- Support for research for biomarkers of EHS
- The safety card - [order your own safety card](#)

There were no questions or disagreements with the projects.

7. Presentation of the new budget for 2026.

The moderator gave the word to Corriëlle who presented the budget for 2026. [See details here](#)

Remark from a member from Poland: Recommendation to try to get donations. He cooperated with some key actors who had experience with seeking grants and getting donations and offered help for example for the Conference in Germany in June 2027.

The Moderator took up the question of fees for the next year and gave the word to Rob. Rob proposed on behalf of the board that ESC keep their annual fees at the present level: 1 Euro per paying member of the former year ending on 31 December. It was approved unanimously: 19 votes in favor, 0 against, 0 abstentions.

8. Approval of Budget 2026:

The budget was approved by the members with 18 votes in favour, 0 against, 1 abstention.

9. Incoming proposals from the members or from the board:

No proposals were submitted by May 1, 2026.

10: Special Presentation

Per Segerbäck gave a presentation on "EM Fields produced by Electric Cars. Can one survive?" The presentation was very much appreciated and followed by a brief Q&A session.

Questions and recommendation:

- Is a summary available here? Will this presentation be available in public? Could we have a whole meeting about this topic? Yes, Per is willing to do this. The equipment Per designed could be very useful for EHS-people.
- Do you obtain specific data on EMFs in cars? No, just to mobile phones.
- Info from Technical Solutions working Group: 2 years ago, we contacted several car importers and distributors to get them to reveal their data on EMFs in cars. Nobody replied. Then there was a survey among our members about which cars were good, medium and not good for EHS people by people's own experience. Many answers were received: See results [here](#) and [here](#)

11. Election of members to the Board of Management

Acknowledgment of members stepping down: Rob van der Boom, Fina Carpena, Kamil Bartošák, and Guy Lerat (Nov 2025).

Kamil and Rob are candidates for re-election. New candidates: Corriëlle van Vuuren (StichtingEHS NL) and Maksymillian Fojtuch (Fundacja Ruch Społeczny SPOIWO, Poland).

The candidates for the Board gave a brief introduction of themselves and outlined their motivations for joining the Board.

The moderator started the voting procedure. 1 member had left the meeting at this point so there were now 18 legal votes present. Results of the voting:

Kamil Bartošák: 16 votes in favour, 0 against, 2 abstentions

Rob van der Boom: 17 votes in favour, 0 against, 1 abstention

Corriëlle van Vuuren: 17 votes in favour, 0 against, 1 abstention

Maksymillian Fojtuch: 17 votes in favour, 0 against, 1 abstention

The moderator welcomed the new board members.

12: Election of Deputies

The candidates listed in the agenda (Elisabeth Madsen, Claudia Lotte, and Cristine Sala) briefly introduced themselves and outlined their motivation for joining this voluntary position. Martin Krenicky did the same for Petra Bertova; as approved during the opening of the assembly (Item 1), Petra Bertova (Slovakia) was additionally put forward as a candidate *in absentia*. Martin Krenicky confirmed her prior consent to accept the election if chosen.

A vote was held for each candidate, resulting in the following results:

- **Elisabeth Madsen:** 18 votes in favour, 0 against, 0 abstentions
- **Claudia Lotte:** 17 votes in favour, 0 against, 1 abstention
- **Cristine Sala:** 18 votes in favour, 0 against, 0 abstentions
- **Petra Bertova:** 18 votes in favour, 0 against, 0 abstentions

All candidates achieved the required majority and were welcomed as deputies.

13. Election of a financial audit:

The current members of the Financial Audit Committee, Charlotte and Beatrix, expressed their willingness to stand for re-election. No other candidates were put forward.

A vote was held. Result:

Charlotte: 18 votes in favour, 0 against, 0 abstentions

Beatrix: 18 votes in favour, 0 against, 0 abstentions

14. Miscellaneous

Film Screening on High-Frequency Radiation: Dr. Judith Rommel (Chairwoman of the *BZND Zentrum für Neurodiversität e.V.*) presented a short film (Yellow for the Invisible) illustrating the widespread integration of mobile networks, Wi-Fi, and other high-frequency radiation into daily life, specifically highlighting its impact on young children.

Feedback and Collaboration: The film was very well received by the assembly. Dr. Rommel requested permission to display the ESC logo on the film.

Distribution: It was discussed how to support the spreading of the film, maybe with the logo of ESC and a section on our Website for the upcoming **World EHS Day (June 16th)**. A decision however was not made. In response to a question about the ESC's involvement, the Chairperson confirmed that the ESC will still decide on how the World EHS Day can actively be supported by ESC.

Also, the possibility of publishing the film on YouTube was discussed; however, a final decision on this matter was deferred.

Summer-Meeting 2026 in in Holland: Marjon Tas (Marjon.Tas@stichtingEHS.nl) informed about the Summer-Meeting 2026 in in Holland end of august this year. We are happy to welcome our international community as well. [Website of the camping place here](#)

This is the link for google maps: <https://share.google/aoEnJbZWIsLUtpq9Q>

The date is: 19-26 August 2026

Lectures are planned in the weekend 22-23 of august

Mentioning of new scientific research on how many people feel negatively affected by emfs or rather how many people sense emfs.

There were no further questions or comments by the members so the moderator thanked the assembly for their attendance. She then gave the word to Rob who also thanked the assembly for coming to the meeting in such strong numbers and thanked the moderator for the moderation.

End of Assembly

Date: 27-5-2025
